

**Joint Statement  
of the Russian Federation and the Kingdom of Cambodia**

The Russian Federation and the Kingdom of Cambodia,

**Noting** the significance of Outer Space activities as an important factor of social, economic, scientific and technological development of States, as well as its role in maintaining national and global security,

**Believe** that Outer Space should be used in compliance with international law for the benefit of all Nations, regardless of the level of their economic, scientific or technological development,

**Reiterate** their commitment to the principle enshrined in Article II of the United Nations Charter – to refrain in international relations from the threat or use of force, including in Outer Space activities – and proceed from the assumption that all States will strictly adhere to that policy,

**Declare** that they will not in any way be the first to place weapons of any kind in Outer Space, that they will make all possible efforts to prevent Outer Space from becoming an arena for military confrontation and to ensure security in Outer Space activities. The Russian Federation and the Kingdom of Cambodia call upon Outer Space-faring Nations to follow their example.

Signed in New York on \_\_\_\_ September in the year 2019.
